As for just relying on the antivirus built into Windows 8 x or Windows 10, that may not be the best idea.. Most of these products are also suitable for use by small businesses However, your business might be better off with the full protection of a security suite.. What about unknowns, programs it can't identify as good or bad? Behavior-based detection can, in theory, protect you against malware that's so new researchers have never encountered it.. 4 AVG AntiVirus Free 2015 AntiVirus Free 2015 from AVG is one of the best free antivirus software tools available and is probably my personal favorite.

It's not quite an Editors' Choice, but it's still worth considering to keep your PC safe.
